Running out of places to build links? Tried all the directories, article directories, dofollow blogs comments? I have discovered an untapped resource which will allow you to post Dofollow backlinks on over 1 Million Blogs. You will have to add these one by one, but they are 100 dofollow, niche targeted links with your choice of anchor text! \* NOT Directories \* NOT Blog comments \* NOT Payperpost \* NOT Link Farms \* NOT Referrer spam Blogs are all types, from new to well established blogs. From low PR to high PR. These links are 100 legit and do not break any rules. Plus, you can repeat this for all of your sites! Each link takes around 5 seconds to add. And they can all be done absolutely FREE!!!
