

List Of Over 500 Working Http Proxies

[DOWNLOAD HERE](#)

I have a program which scrapes all proxies from about 80 proxy websites. I run that to find over 10,000 proxies and save them to a text document. Then I have a proxy checking tool which I load that list into and it goes through each one picking out the working ones and logging them to a text file. Please order my gig I need money for college desperately! Thanks!
