Dear Fellow Sellers, Would you like to hypnotize your potential bidders into purchasing your items? I am sure you do, we all do and now you can with NLP! NLP stands for Neuro-Linguistic Programming, its a form of hypnosis based on hidden, subliminally persuasive language patters either spoken or written. NLP is used to indirectly, secretively persuade, sway and control ones subconscious mind and decision making process without the potential bidder ever knowing it. There is nothing illegal about using NLP to sell your products. Many large companies use these techniques all the time to sell products. After you learn the techniques you will be more aware of these type of "mind control" techniques and will be able to spot others using them. You can also use these same techniques off eBay in any area where you try to persuade people. You must realize that you are not the only one trying to make a profit on eBay. Many people have turned eBay into there careers. You are in competition with every seller not just the ones that sell simimilar products as you. Everyone that is selling something in the same listing on the page your item is listed. Its a constant fight for the customers attention and ultimately their bid. After studying the techniques in this eBook you will gain an incredible advantage over all the other sellers. Once you learn and master NLP it will be with you forever and you will start to use it your daily life without realizing it. Side Note: Tony Robbins, a master at motivational success and personal growth training, talks using NLP without even thinking about it. When you listen to him talk you become inspired. The key to this is NLP, its the heart of his course and seminars, his entire system. Sellers, dont you need this advantage? Tags: nlp
