* * Stop Waiting and Waiting to Get Your Website Indexed Into Search Engines At Last! Get Your Website Listed In Major Engines Quickly. . .And Updated More Frequently Previously Undisclosed Method for "Blogging and Pinging Will Work For Anyone Wanting an Internet Presence--Quickly and Easily Dear Internet Marketer, Lets face it, putting together a website is toughbut getting that website into the major search engines like Google and Yahoo is even tougher! Theres no doubt, the most difficult marketing technique for any Internet marketer to learn is how to get your sites indexed. And until you master it, the web site that you are counting on to generate sales, build your reputation, or generate Ad Sense revenue is just floating in cyberspace--worthless. No wonder it seems to take forever and ever. And it sometimes it really IS Forever and Ever!! That is why there are countless sites with advice, tons of expensive software, and plenty of costly seminars on how to get a search engine's "web crawler" to "spider" (that is "geek" for find and enter into the search engine) your site. And yet, you and others just keep getting frustrated until you spend more hours in research, pour more effort into "tweaking" your site, or waste even more money on someone's outdated ideas--all while time and opportunity are still slipping through your fingers. The simple truth is that until the search engine finds your site and decides to spider it, nothing else matters. This is where the newly discovered method of Blogging and Pinging proves so valuable. It gets your site noticed and spidered quickly and brings the crawler back more often. Blogging and Pinging Two big web trends: * Blogging - easy to create with free and relevant content * Syndication - lets a site generate its own activity (pinging) I knew there must be a way to put these two trends to work to get web sites quickly spidered and frequently updated on Google, Yahoo, MSN, and other search engines. I spent hundreds of hours figuring out the Blog and Ping process. You see, these are two separate processes that happen on the web every day. Lots was written about each one but little is written about using them together in a way that would drive search engines to sites--at least not in a way that worked!! I was about to give up when the thought hit me--"Everyone is making this seem hard, if not impossible." I stepped back, tuned out the hype, and realized there was a simple solution. Even with all my hours of research, it took months more to discover the simple, workable connection between blogging

and pinging that capitalized on the design and function of search engines. The secret is that each of a few simple steps has to be done exactly right and in the right sequence on two separate web functions. Now, don't get worried. I have put these steps one - by - one in "The Blog and Ping Internet Marketing Tutorial" and provide the simplest and easiest way to do each one. There is no "trial and error"! The tutorial contains over 75 screen shots showing you exactly what to do. You can get a real web presence with less effort and no costly services or software. No more waiting and waiting and waiting. No lost opportunity. AND faster sales mean faster cash flow! Are you fed up with methods that don't work? How many great ideas have you had go down the financial toilet simply because the Yahoo spiders took too long to visit and index your site? Are you ready to get results? There's no doubt, the most difficult marketing technique for any Internet marketer to learn is how to get your sites indexed. Until you master it, the web site that you are counting on to generate sales, build your reputation, or generate AdSense revenue is just floating in cyberspace--worthless. What you need are the simple, but critically important, steps to follow in just the right order to get your site working for you. So this one-of-a-kind resource, "The Blog and Ping Tutorial, can be downloaded today for only \$47.00 Now Only \$14.95-- With Master Resale Rights!!!
