The Secrets of Manifesting and Attracting What They Don't Want You to Know! Chances are by now you've heard of the Law of Attraction, and maybe you've even seen the movie The Secret, the wonderful documentary based on the principles behind the book The Science of Getting Rich, by Wallace D. Wattles. But have you ever wondered how to put these ideas into practice? How to go about manifesting and attracting the things you want into your life, such as: * More Money * A Better job, not just in terms of money, but in terms of doing what you love * The right people & relationships * The kind of opportunities & good luck that just seem to come easy for other people? I guess you could call me a Self Development addict. I've listened to so many tape and CD programs, read so many books, and watched so many videos on the subject, that I've lost count! Not to mention all the hypnosis and subliminal products I've eagerly consumed! But I just absolutely love exploring this area of life, and while I don't claim to have nearly the level of expertise of some of the greats, and masters, I have picked up a few practical findings along my journey. I've had a few moments when certain ideas just became obvious to me, and made a difference in my life from that point forward! In this short ebook, I go into some of the things I've learned, and attempt to explain it in a way that ordinary people, like me, can understand. Now I'm not claiming after reading my book you will become an overnight millionaire, or your life will be perfect, or anything like that. I should also point out, this is not a complete, all you'll ever need guide--if such a thing actually exists. In fact, I encourage you to continue reading and studying well beyond my guide, as learning to apply the law of attraction to your life is learning a process, like learning anything is a process. But I believe if you think about these ideas, and let them sink in, and try some of the exercises and approaches I suggest, that you will see a difference--real changes, that lead to a happier and better life!
