Affiliate marketing, as popular as it is, has tons of newbie marketers gasping for air amidst a swarm of overcrowded affiliates touting almost the same kind of products! So the novice marketer is faced with two important criteria if he wants to succeed: 1) Try to branch away from the make money online markets 2) Have a unique selling point to market! And guess what the best option would be? Having your own product. You see, if you have a product in a profitable niche, youve pretty much got a headstart over hordes of clueless, desperate newbie marketers still trying to figure out head or tail in the infancy stages of their online business.
