What is .diz? .diz files are just regular text files, you can open in your favorite text editor. The extension .diz is used to enable you to put the whole product as-is in a blog tool. This way you do not need to fear, that these lists/descriptions (=not-marketing-content) get published on your site. The blogging tool should only process .txt-files. Hence .txt is used only for publishable marketing content, but not for internal information. It is just used to make your life easier. Buy 25 marketing PLR articles, #33 now! Tags: marketing cash
