"Look No Further... A Pregnancy Book That Will Actually Prepare You For Everything That You Will Encounter During Your Pregnancy" Stop Worrying About All Of The Unknowns That Come With Being Pregnant, In This Guide We Will Take You Through Each And Every Trimester! Date: Thursday, August 27, 2009 From The Desk Of: YOUR NAME GOES HERE RE: Pregnancy Guide Dear Friend, I've been in your shoes. I was once a mother to be and had TONS of questions about what to expect. I got advice from my family members, in-laws, and friends... But everything they said was different. I couldn't tell you how nervous I was when I found out that I was going to have a baby! Even though my husband and I was expecting, I still wanted to cry I was so scared of the unknown, I had no clue what to expect. Trying different guides to pregnancy usually were just people telling me their personal experiences, and from my own experience I know that no pregnancy was the same. This is when I realized that every pregnancy is different but have the same similarities was the answer to what I had to expect. So that's when I had started on the most ground breaking guide to pregnancy you will probably ever read! I Had Peace Of Mind With Each And Every Issue I Faced With My Pregnancy! I spent the next six months listening to various sources to everything that I was dealing with. Anywhere from the kind patron at the grocery store to different obstetricians I collected all of the information and found out the many different insights to pregnancy . I understand that some people listen to what their OB has to say and some people think their out of their mind and do the unconventional methods. I found that each worked to certain degrees on all people. I must admit that I was a conventional person and thought that other "methods" where crazy and didn't give them a second thought. But a friend of mine did just fine with those same "wacky" and "crazy" methods that I was against. After months of documenting and months of research I found a system that will work for all expecting mothers. And so, this page was born...
