"Imagine Stumbling Upon A Method To Make Your Bank Account Spit Out \$10.00 Bills Over And Over Again Using 5 Different, Easy to Use, Simple Methods!" Congratulations, you've just discovered the 5 Secret \$10 Profit Making Plans [but the really remarkable part is that this information won't cost you a penny] Have you heard the phrase. . ."Work Smarter Not Harder"? Or how about. . . "Sell Higher Priced Products To Cut Down Your Work-Load"? Well, you are about to discover why those phrases pose a more difficult scenario than you might think. So, if you've been struggling to make money selling information products, or digital products, then I urge you to continue reading..... Every once in a while you will hear from many of the online digital info product sellers that you must sell higher priced items to decrease your workload. But, do you realize how difficult selling an \$80-\$150 product really is?!? Have you tried selling high ticket items? There is a time and a place to sell high ticket items and these do fit in to a system, your marketing plan. But in the real world of 'right now' and if you have not "made a name" for yourself, or you are someone just beginning in the info-product industry, or even someone fairly known, it will still be quite impossible for you to gain the trust of customers to shell out that kind of money to you. Especially to someone they've never heard of before. To see any money when you begin, you must set your goals lower. Yes. I said l-o-w-e-r. Bet you never thought you'd hear someone tell you that, huh?!? But it's the honest to goodness truth. If you hope to see any type of cash flow from selling info products online, then you must be realistic about how much you will be able to earn when you start out. If what I have just told you has taken the wind out of your sales a little then "hey, welcome to the truth" and sometimes its not what you thought it would be. I'll pull no punches here, I'll feed you no crap and I'll talk straight with you. After all, isn't that exactly how you would want me to talk to you? You wouldn't want me to tell you something just because it's what you wanted to hear or hype it up and cover it in bull either would you. Let's face it, you're clever enough to see through all that anyway. We all like the plain, honest and simple truth in life and online marketing is no exception. It's with this in mind that I set out to deliver a brand new ebook for you that's is going to cut out all the fluff, hype, bull and filler and give to you not one, not two, but five different and simple methods to pull in \$10.00 bills over and over again with ease. "Why

these 5 methods"? Because these methods have been proven to work. Time and time again. And that's the first step to success. Having methods available to you that will get the job done. It is much more logical, and much easier, to get a stranger to invest \$10.00 in one of the products you are selling than it would be to get them to part with, say, \$100.00. Would you give one hundred dollars to someone you've never met before that was in business for themselves? Doubtful. But, if you were asked for just \$10.00 for some type of product you wanted, would you be less worried about parting with it? Of course! You would see the lower cost of the items as a lower risk. That's the psychology behind these methods. And they do work. Now I bet you're thinking, "OK, anytime about now we're gonna get to the price of this ebook and it's gonna be \$10" Sorry, you're wrong but sometimes it's good to be wrong. I was going to set a \$27 price tag to this ebook but I've had second thoughts. You see, I really do appreciate you being a subscriber of mine. I actually value your commitment to me in reading my emails and visiting my websites. I view you as a friend and would like to think you may think of me in the same way. You can never have enough friends ;-)

So, it is for this reason that I would like you to HAVE a copy of my new ebook for just \$3.75.
