

Membership Site Manifesto

[DOWNLOAD HERE](#)

This book answers the following questions: 1. What exactly is a paid membership site? 2. How can creating a paid membership site help me? 3. What do members receive for joining my site? 4. What type of software should I use to setup and maintain my site? Introduction Starting your own paid membership site is a great way to generate full-time or part-time income. You can earn twice or three times more than you'd earn working full-time at a typical office job. Wouldn't it be great to have the income of a company president without all the hassle and strain? Well, it's possible when you build a successful paid membership site. You're probably shaking your head in disbelief, thinking How can I make that much money online? I'm signed with loads of affiliate programs, and I'm also an eBay seller. I make a few dollars here and there, but not enough to earn a part-time or full-time income. Rest assured you'll have a different point of view when you finish reading this book. Owning a paid membership site is nothing like being an affiliate marketer or eBay seller. You have total control over the financial aspects of your site. It's basically up to you to determine how much money you make per month or year. Consider this example: A membership site with 100 members and a \$25 monthly fee would generate \$2500 per month. That same site could also offer a special yearly subscription rate of \$240. Let's say 100 additional members joined at the yearly rate. One-hundred members at \$240 per member is \$24,000 per year. We're talking real money here, not spare change. The example above is just one possible scenario. You can charge as much as you want, allow as many members as you want, and build as many sites as you want. This is why paid membership sites are not only lucrative, but are a powerful way to build an online business. This book answers the following questions: 1. What exactly is a paid membership site? 2. How can creating a paid membership site help me? 3. What do members receive for joining my site? 4. What type of software should I use to setup and maintain my site?
