Dear friend, I am going to get straight to business. I am just a regular person, but what does make me different is that I have spent the last 8 months researching everything there is to know about becoming a successful eBay seller. I have worked with over 50 of the biggest sellers currently doing business on eBay and got them to reveal the secrets to their success, the most important things about doing business on eBay and even exactly where they find the products they sell to make their outrageous online fortunes. I have dealt with hundreds of suppliers from all around the world and learned exactly where and how to find a wholesale supplier for any product I want in just a few minutes. I even bought other eBay info products, just to see what they teach. Most of the stuff I read was useless garbage. The stuff I did find useful I researched, tested and stuck it into my guide! And after all that research, experience and advice from the top Power Sellers on eBay I have compiled a complete guide to eBay success that doesn't just tell you what to do, it tells you exactly how to do it!
