Google Places Goliath [Rights: Master Resale Rights] Get MASSIVE Exposure On Google And CRUSH Your Competition! Don't Spend A Single Penny To Get Your Business Listed Prominently On Google "Download Free Preview" To See Full Sales Page Dear Business Owner, It's true! The Internet is the way forward to get more custom to your business. You don't need to spend a small fortune on Yellow Pages ads, radio commercials, or getting listed in the newspaper. (And, yes, I really do mean a small fortune! Have you seen how much Yellow Pages ads are running these days?) All those methods are old hat! They're stuck back in the 20th Century. Paying For Local Advertising Is Out! You Need To Move Your Publicity Machine Online! Getting attention online is easy. You just need to advertise. But, how do you get going if you've never advertised online before? You Could Hire A Marketing Consultant. That will work, but they're going to charge you the big bucks for setting up an online listing which you could do in a matter of hours. And, they won't know all the secret insider details of your business (you really want to share those with a stranger? - yeah, sure you do). You Could Pay Google For Advertising. I've seen so many victims lose their shirts doing that. And all for nothing in return. You Could Set Up Your Own Low-Rent Web Site. However, if it doesn't look professional, you're harming your business. And, I've seen lots of non-professional looking web sites. That is, if anyone even knows about, and visits your site. Without visitors, your site is worthless! You Need To Use Google's Free One-Stop Solution What if I told you that Google has its own free promotional service that very few people know about. And the service will get your business listed in a prominent position right where your customers search for it. You'd think I was 'yanking your chain', but this service really exists. It's called Google Places. It will get you all the online visibility you need. And the best thing? Your Competitors Don't Know About Google Places That gives you a huge advantage in the local market to take the lead advertising positions away from them, and all for nothing. And all for following a quick and easy process, without needing to leave the comfort of your home, or hire an overpriced consultant. Google will tell you everything you need to know to set up a listing with Google Places. But, they don't make it easy on you. They use tech speak. And, they don't share with you all the insider tips you need to get your business in the most dominant position in the

search engine listings. The good news? I've got the solution right here for you. Introducing Google Places Goliath I've scoured my way through the complicated Google documentation, and searched for all the hidden secret tips I can find. I've even tried out the Google Places options, just to make sure I know the ones that work best. And, I'm making the results of my long hours and sleepless nights available to you in this new report. It's called Google Places Goliath, and this report shows you, step-by-step, how to get your business listed on Google Places - and how to harness the power of Google to bring customers to your door. Here's what you'll discover when you purchase your copy now... \* The 10 reasons why you need to be using Google Places (I'd bet you your competition don't know more than one or two of these - and I'd be surprised if they know any!) \* The exact information you need to get approved by Google and how to find it... save yourself hours of research to get your business accepted into this prominent free publicity machine \* How to build up trust with your customers through Google Places - this tip alone is vital if you want to operate a thriving business in the modern day world \* Exactly how to get your business 'on the map' - literally! Get your business landmarked on Google Maps, so that customers in the local area can't help but know about the service you are offering them \* The secret technique you need to know to get your customers to rave about your business online... apply just this single tactic and watch the floodgates open \* 10 other directories you can list your business in for nothing, and which all have a knock-on positive effect on Google Places \* And much more... Can You Put A Figure On The Value Of This Information For Your Business Imagine how great it will be when you go to Google, type in the name of your business, and see your business there, looking back at you on the first page.
