Hypnotize yourself and others to recovery, to prosperity, and to a much better life! "Understand Hypnosis - What's True and What's Not; How to Do It and Do It Right; How to Use It to Have Super Confidence, Break from Bad Habits, Lose Weight, and Excel in Life!" Have you ever wanted something so bad that you willed it to happen? The promotion that you have always thought and fantasized about that you have gotten your thank you speech memorized - just in case? How about that new gadget that you have turned around in your mind that you can almost feel it in your hand? Or how about that person of your dreams whom you think about 24/7, with corresponding imaginary encounters? If any of your desires did come true, there's a big probability it did not happen by chance. It's not a miracle either. And it's not a one-time deal - it may happen again. By the sheer will power of your mind and your subconscious, you made it happen! The mind is the main control center of your whole body. Whatever it sets out onto itself will affect your whole system - inside and out. If you only know how to operate it and steer it to your command, the possibilities are endless! Experts - from mystics to scientists - agree that this main control center can be controlled and harnessed through meditation, visual suggestion and mind exercises done through HYPNOSIS. From: TRACY YATES Dear Hypnosis Enthusiast, You thought you've done the right things. Headed for the right direction. Made the right moves. Still, things still are not turning out fine. For example, you have long wanted to shed off those excess pounds, to trim and shape your body according to your ideal weight. You tried it all - diet, exercise, medicine, and machine! Still the pounds stubbornly refused to leave, making you more miserable and making you want to eat more! Or another example: Since time immemorial, you have urged, encouraged, and supported a loved one in his goal to quit smoking. His lungs are almost ready to give up from being exposed to nicotine for years and years. The doctor says there is now a thin line between him and lung cancer. So you gather up all your efforts to help him get off the stick. You almost drained your finances just by trying the different methods, but to no avail. Even something as simple as getting your little brother to quit biting his nails did not go away after your endless coaxing, threats and nagging! So how can hypnosis solve all these problems? Hypnosis is a procedure that taps into your subconscious, putting you in a state of a trance that would bring you under

extreme suggestibility. This means that through hypnosis, you can be "fed" suggestions about your personality, habits, behavior, and way of thinking that can influence your life immensely. Did you know that ... Psychologists use hypnosis to calm and soothe people who are in a state of trauma or are nervous. Medical practitioners use hypnosis as anesthesia - surgeons during surgery, dentists during tooth procedures, and doctors and midwives during childbirth. Post-surgery or post-operation, hypnosis is also used to prevent infection or unpleasant side effects. Mental health professionals use hypnosis as part of the therapy for patients with psychological conditions. Hypnosis is used to help both patient and doctor understand health and mental conditions, the causes and possible course of action to be taken. Hypnosis is used to curb problem habits such as smoking, eating disorders, or unpleasant behavior. Hypnosis is effective in dealing with psychosomatic problems or physical illness that can be rooted from a psychological condition. Learning ability, physical performance, and social attitudes can be improved through hypnosis, too. Hypnosis is also being used by the legal system in aiding crime investigation. Throughout history, across religious and professional boundaries, hypnosis has been used extensively and utilized in improving people's lives. Who knows, the next life to change might be YOURS! In this light, I have prepared an extensive report on hypnosis that would jump-start your way into empowering your mind. Hypnosis Mania: Unmasking the Mysteries and Powers of Hypnotism will teach you effective techniques on how to tap into the subconscious, so you can intensify focus and concentration in fulfilling any goal. It can help you be more attuned with your intellectual and emotional capacity. This will help you analyze your condition, and will help you modify your habits and behavior. Single-handedly though, hypnosis is not the answer to all your problems. It is effective in coordination with other medical and therapeutic prescriptions. Most important of all, it will work according to your willingness and initiative to change and be changed! Hundreds of testimonials swear that hypnosis opens up endless possibilities for their own benefits as well as for others. What you will find inside Hypnosis Mania: The truth about hypnosis. Shake away those preconceived notions about hypnosis as evil, mystical, or occult. Scientific discussion on hypnosis and mind control. How hypnosis affected one of the most infamous men in history, Adolf Hitler. Two ways by which hypnosis is performed. How people get hypnotized on a daily basis. The people most highly susceptible to hypnotic suggestion. How the improper use of hypnosis can take someone's life. Hypnosis used as a mechanism for military intelligence. Common techniques to effectively hypnotize subjects. Signs to determine if the subject is already ready and open to hypnotic

suggestions. Can hypnosis bring you back to the past? Hypnosis used as a tool for surgery. The best way to treat a physical condition more efficiently. Hypnosis used to resolve crime investigations. Fantastic tips from stage hypnotists to put on a great show. How to tap into your subconscious. How to be a self-hypnosis practitioner. Elements needed for an effective hypnosis session. How to use hypnosis to captivate your lover. How to use hypnosis to quit smoking and other bad habits. How to use hypnosis to lose weight. How to use hypnosis to make someone a real winner. How to use hypnosis to create financial abundance. Where to find a comprehensive list of actual hypnotic induction techniques for free, including deepening, induction, testing, and trance! Where to find a comprehensive list of actual hypnotic scripts to solve health problems for free, including asthma, depression, stress, constipation, anxiety, high blood pressure, migraines, insomnia, weight gain, smoke addiction, and many others! Where to find a comprehensive list of actual hypnotic scripts to enhance your abilities for free, including concentration, creativity, memory improvement, public speaking, self-confidence, speed reading, financial prosperity, and many others! An extremely powerful self-hypnosis exercise to clear your mind and calm your nerves. Instructions on how to ease away your physical tensions and mental worries through trance that is the gateway to hypnosis. And a lot, lot more! If you wish your life more success; if you want to eliminate pain, uneasiness, tension and anxiety; if you wish to take a break, pause, or stop amidst the chaos of everyday living; if you're ready to pull your life together and hold it in your hands once again; then you can start right now. No need to get out of the house. No need to put on makeup. No need to put on fancy clothes.
