

Instructions For Teabag Folding For Cardmakers

[DOWNLOAD HERE](#)

This pdf file contains instructions on several different ways of folding tea bag tiles, just to get you started. There are ten pages of illustrated instructions showing how to make simple kite folds, two different star folds an origami square, and a celtic link, and several different ways of linking them together, to form medallions, stars and circles. These instructions don't come with any tiles, but there is a pack that does contain a complete starter set of tiles, backgrounds and the instructions. Just look on my other listings! thanks
