This book is designed to meet the requirements of people who desire of achieving greater heights by implementing very simple and yet powerful concepts that have the potential to change your life completely. It is not intended to be a book based on hypothetical research nor is it a philosophical treatise, but it is a book that uncovers information that will bring a lasting incentive allowing us to unleash the inner resources of strength and dynamic willpower to the fore. In fact it is a compilation of facts presented in simple laymans English containing information that is going to bring immense joy and success in your life. It covers profound and dynamic truths conveyed in few potent words that kindle a renewed sense of awareness of our limitless latent inner resources waiting to burst into the open. It comprises practical expressions that have the potential to bring success, health, wealth and enduring happiness. One of the most difficult points to reconcile in life is the paradox that suffering exists in this world. Suffering is eminent. Of course, what is equally important is realizing that the acquisition and possession of wealth is not a ruler that measures ones happiness. If joy truly were to be found in materials, then all those who experience the thrill of it by coming into contact with the object would observe the same measure of joy. In life, men are continuously motivated by two inevitable impulses of repulsion from sorrow and craving to seeking joy and absolute fulfillment. In the quest to embrace all happiness, he is compelled to run after the enjoyable and agreeable, while confronting the opposites, he avoids undesirable objects and disagreeable environments. The fact is this: throughout history, all achievers conscious or subconsciously have used five principles, which are common to absolute progress in all aspects of life.
