Havent you always wanted to make tons of cash just by sitting at home on your computer!?! EBAY!!! Listing #2 THE RE-SELL-IT ON EBAY - HOW TO SELL INFO PRODUCTS ON EBAY!!! Re-Sell it on eBay (\$27 Value) The Secrets to Selling the Single Most Profitable Type of Product there isAnd Keeping 100 of the Profit from Every Single Sale You Make! If you are just plain tired of dealing with stubborn and unreliable suppliers, paying way too much money for products to make any kind of significant profits, packing and shipping physical products and quite simply not making enough money, this letter is for you! You are about to discover how to keep the profit from every single dollar your customers pay you and get rid of dealing with stubborn suppliers and shipping all together! No packaging or shipping! No dealing with stubborn overseas suppliers! No paying outrageous shipping and customs charges just to get your hands on the products you want to sell! No more making a measly 30 or 20 profit on every sale you make! Not only are you about to find out how to get rid of some of the biggest problems related to running an eBay business, but you are about to find out how to sell and where to get the most profitable kind of products you can possibly sell on eBay. So what kind of products am I talking about? I am talking about digital information products! But before I go into what digital information products are, here are just a few advantages to selling digital info products: You keep 100 of the profit your customers pay you. Thats right! Info products have a whopping 100 profit margin! You dont have to ship or pack anything, you can even have an automatic download link sent to your customers after every single sale you make (this sure beats spending hours each day packaging products and going to the post office). You will never run out of stock! Its that simple, since info products

are digital all you have to do is upload it to the Internet and give your customers access to the download page! You don't need any storage space! No more boxes and packaging materials littering your whole house. You can store as many info products in your hard drive as you like. No need to constantly look for and deal with suppliers! You can simply create your own info products or even easier: buy resell rights! You don't have to buy every single product you sell! With physical products, you must pay for every single item you sell, and this significantly eats away at your profits. Digital products on the other hand are free to create. And if you do buy resell rights, you only have to pay once! Your customers get access to their purchases immediately, instead of waiting days or weeks for the products they just bought. Instant gratification! You eliminate the single biggest reason people refuse to buy stuff online: paying too much for shipping charges. And that is exactly why selling info products is a lot easier, hassle free, enjoyable, less time consuming and a lot more profitable than selling electronics, antiques, clothing and other physical products! In fact, if you sell digital products on eBay instead of physical ones, you can easily have your whole eBay business automated! Because you will NOT have to package and ship anything, you can simply have automatic emails with download instructions sent to everyone that buys from you! As easy as selling info products on eBay is, there are still some things you absolutely MUST learn in order to start selling info products successfully. And that is exactly what you'll learn.
