The Newbs Guide To Video Marketing + Gift If Youre Not Using Video Marketing In Your Business Youre Almost Certainly Leaving Money On The Table!! Theres no getting round the fact that video is growing in popularity almost BY THE HOUR in internet marketing. Pretty much ALL successful marketers are using video in their marketing strategies - on sales pages, in viral marketing and in list building. And anyone whos not using it IS going to be left behind. In a big way. Youve seen the MASSIVE growth in social networking sites and user submitted videos sites, and this means that pretty much anyone who uses the internet is used to clicking a button and watching dozens of video clips during an average browsing day. And thats all very nice to know.... BUT LETS CUT TO THE CHASE and see what video means to YOU as a marketer: 1. Use of Video has been proven over and over again to get a BETTER conversion rate for both opt-ins and sales pages, than pure sales copy does. 2. People are becoming more and more used to quick fixes and while theyre happy to sit through a two minute video, theyre not as keen on reading a long sales letter or blog entry. 3. When you use video in your marketing its just plain EASIER to convey certain messages rather than trying to describe them in text, you can just SHOW the viewer what you mean. 4. Videos are probably the easiest way to create products. You can create a 10-week video course in a matter of days. Try writing one instead and see how long it takes you! There are dozens more reasons why its essential to use video in your marketing strategies, but first lets look at reasons why many people are reluctant to use video in their online business! \* They dont know anything about how to create a video \* They dont know anything about how to edit a video \* Theyre scared of the expense involved \* They simply dont know anything about the technology involved \* They have no idea what software to use, how to use it and where to get it from! Well Ive just solved your problem. Introducing.. The Newbs Guide To Video Marketing Ive covered everything youll need to take you from video marketing newcomer to clued up and confident video marketer. Even if you dont know the first thing about video marketing I can show you exactly how to get started. In The Newbs Guide To Video Marketing Ill show you.. \* Exactly what video marketing IS \* What video marketing can do for you and your business \* What makes a great video \* How to actually MAKE videos \* Where to get the software you need \* Where to get the software you

need on a budget \* Where to get the software you need for FREE \* How to create your videos using webcams, or screen capture software \* How to use your finished videos in your business \* How to market your products using video \* Exactly where to submit your videos to grab traffic \* How to host videos so they play faultlessly \* Which services (often free) are a MUST HAVE for video marketers \* How to upload your videos to your blog or webpage \* and much much more... Theres no doubting that video marketing is the future. More and more youll find that new internet users are being exposed to video in the form of news, entertainment AND in the form of SALES VIDEOS. This means that you need to sell to them in a media that they understand. If youve had that niggling doubt for a while now that you really should be using video in your internet business, but have always found the software, technology and learning curve off putting, then grab yourself a copy of The Newbs Guide To Video Marketing right now.
