Site Flipping Tycoon Will Show You The How, What & Where - So Whatever Your Level Of Experience, You Can Buy (Or Develop) Sites At Wholesale Prices, And Sell Them For Three, Four Even Five Figures Each! Everyone from full time internet marketers, to work at home moms and those seeking a part time income for a few hours of work a week are able to flip sites for huge profits. Once you follow the blueprint inside, you'll know where to buy sites (for as little as \$50) and make simple adjustments to them - so that you can sell them on for multiples of your investment. This guide is like finding a stock market tips newsletter that picks stocks that quadruple in value within days...each and every time. It will be one of your best investments online... ----- Dear Friend, Perhaps you've seen the smart people who are able to create five figure per month profits at will. Do you know the secret to making these huge sums? You need to sell something of value! "The Average Website Sells For \$2,700 - Because Site Development Is Usually A Difficult Skill That Most Non-Techies Are Happy To Pay Good Money For" If you're reading the above statement and thinking, "well that's great but I don't have a clue about site design - I can't even FTP anything" then that's the beauty of Site Flipping Tycoon. You need zero knowledge or experience about site design or development to make a five figure per month salary doing it. Site Flipping Tycoon Shows You How And Where To Get Fully Developed Websites For As Little As \$50 - And How To Make Simple Fixes That Cost Nothing But Your Time To Make The Site Worth MULTIPLES Of What You Purchased It For!" It's a little like flipping a house - imagine you bought a totally run down property at an auction for \$100,000 - this thing is a disaster, broken windows, broken heating, ripped up decor, unkempt garden - totally unliveable... But, using your skills and some time, you

put all these things right - suddenly you have a near new house that is very attractive to buyers. And your \$100,000 investment suddenly sells for \$200,000. That's double your money - the good thing is that the secrets inside Site Flipping Tycoon will show you how to quadruple (or more) your investment. And yes, you don't need to know a single line of code because you'll learn exactly where to get hold of high performance sites at bargain basement prices...and you'll learn about sites where thousands of eager, cash rich website buyers will queue up to buy your site for you. Are You Familiar With Site Development? You'll Find This Guide Equally Useful! Site Flipping Tycoon was created with the total newbie in mind. But, if you're a seasoned site developer and you have some experience with setting up sites/blogs then you'll find this a very useful guide - I'll share with you some of the most important features and (free) scripts/plugins that I use to make sites increase in value. Here's what you'll learn inside Site Flipping Tycoon: A full introduction to site flipping for a living - how to get started and what can be achieved as a site flipper. The simple 3 step formula that will result in huge profits for every site you flip. This is so simple, but once followed studiously it's impossible not to make profits with your site flipping efforts. The potential of flipping sites - why you need to get involved with this ultra-high ticket, high demand niche right away. Before the herd learn about it. How a single days work can amount to \$600 in profits once you apply the secrets in Site Flipping Tycoon. I have a friend who works as a consultant for a bank - and he doesn't earn what you can with a site flipping business. What you need to do to sell sites for \$5,000+ (and where to find many buyers who are looking to invest in big ticket sites) An alternative to site flipping that can earn you even MORE than the income from sites you sell (you should be doing this along side your site flipping efforts - it takes more time than site flipping but is a natural "fit" to do alongside) The evolution of site flipping - and how it's survived the boom and bust years of the dot com craze...to the point where now it's perfect for smaller individual site sellers. How to pick an ultra profitable niche to flip - this is key - your choice of niche has a huge impact on the amount of interest your site will receive, as well as the ultimate price you'll achieve for it. You'll learn how to analyse and pick the right niches so that you'll always find multiple cash rich buyers to sell to. My own analysis of the seven niches that will ALWAYS have buyers willing to invest 4 figures+ to buy quality sites. Plus, you'll see some examples of what features my own sites have within these niches so you can shamelessly copy and profit from them yourself. How to decide whether you should buy a site to "do up" and then flip, or develop your own site from scratch. If you're a newbie, of course you should consider buying but if you have some basic site

development knowledge I'll teach you how to create and increase the value of the site to make even higher profits. How to get tens of thousands of words of PLR content for any niche for a few bucks - so that your site has superb targeted content from day one. How you can get all your content to appear unique by the search engines (and therefore substantially increase the value of your site to the buyer). There's one incredibly simple trick to doing this (and it involves no article spinning/re-writing) - I'll share this trick with you. The one factor that can take less than a day to "put in place", but that can add several hundreds to the value of your site. Once you understand and apply this, your success as a site flipping tycoon is ensured...and, using the information inside, you'll learn how to do this for free. The ten must-include features that can make your site increase tremendously in value. These things will make your site truly cutting edge, and be up there with every authority site in any niche. How to get your sites listed in Google & major search engines for free. How to make your site multimedia - it's not nearly as difficult as you think, and it's one of the things that can increase the value of your site. The best thing is you can use the power of the internet to stream high quality videos on your site that you don't even own or have to make! How do you make your site truly JUMP in value? You set-up targeted streams of free traffic. You need to know which the best methods are to get high quality traffic to your site fast. You'll learn the FIVE top methods of doing this so that your site will have instant appeal to potential buyers. A site with traffic can easily sell for \$500 to several thousands, even if it's relatively new. Where to get over \$100 of traffic for free. Is this the best part of this book? Even if you have no interest in site flipping, it's worth getting just for this one thing. I'll show you how to create a flurry of instant, targeted traffic worth well over \$100 right away and for free! The exact places where to list your site - there are a few sites that every site flipper must know about...because it's where you'll find thousands of targeted buyers for every site you flip. And, once they like what you offer your reputation will grow and you'll be able to sell your sites for more and more money. How To Turn Your Site's Content Into Videos For FREE - This will impress the heck out of your potential buyers. I'll show you how to use your site content to create videos, and have them submitted to youtube and several other video engines within 2 minutes...and for free. This is a HUGE plus because it create a flurry of video traffic from sources like youtube that will last for years, and most importantly increase the value of your site to buyers. You can turn a three figure site into a site that sells for four figures with this tactic, and it can be done in MINUTES. How To Set-Up "Free Accounts" All Over The Web In Minutes To Further Accelerate Your Site Value - I'll tell you about a number of free

accounts that you can set-up very quickly that are seen as huge assets to potential buyers. Where to buy fully developed sites packed with content and multimedia for a fraction of their development value (as little as \$50 to \$100). Thanks to outsourcing, it's possible to buy sites at one tenth of what you would get them for on sites like elance. I'll show you exactly where to get hold of these sites so that you can immediately flip them for HUGE instant profits. Be quick on this source, it may not be around forever. What's inside Site Flipping Tycoon is a complete blueprint - a way for even the freshest newbie to uncover and apply a genuine method that is capable of earning you a five figure per month income. If you've tried your hand at the "press the big red button for cash" type schemes offered by some big name gurus then you owe it to yourself to give Site Flipping Tycoon a chance. Because, if you're prepared to spend time applying the tactics inside - I fail to see how anyone could not succeed. It's your call now...
