Rainy Day Tanning Ever Wish You Could Have a Hollywood Tan? Are You Afraid of the Risk of Cancer Associated With Tanning? Have You Ever Tried Tanning From a Bottle? Find Out All About Whats HOT and Whats NOT in the World of Tanning! Who hasnt aspired to a beautiful suntan at some point in their lives? After all isnt it one of the guarantees to a happy and successful life? At least thats what the world of marketing would have you believe. All you need to do is turn on your television set or pick up a magazine to find your favorite celebrities looking tanned and fit and instilling that niggling little desire to see the same results when you look in a mirror. In fact, those same marketing firms are banking on it! The Ugly Truth The reality is that a sun tan can be extremely hazardous to your health. Some of us can remember the hours upon hours we spent on the beaches and surfboards alternately burning and toasting. One of the tricks back then was using straight baby oil to speed up the process! Sadly, we are now facing the consequences of those actions. In fact, many of us have lost some of our fellow friends and sun lovers to the ravages of skin cancers. The good news is that there are now alternatives. Knowing what they are and how they apply to us personally can be difficult. Where to Get the Answers Learning just how much tanning is the right amount and how to go about it can be daunting. Finally, there is a solution. You can discover how to sizzle your way to a perfect tan without frying in the sun. Thats where we come in. The Sunless Tanning Guide is your source for questions and answers about how to achieve a beautiful tan while avoiding all the frightening side effects. Not only does it cover what some of those horrific side effects are but you will also learn about this as well: Learn about the different kinds of invisible ultraviolet (UV) rays Find out about how these two distinctly different types of gifts from the sun and why you should pay attention to your exposure Exactly what is Melanoma Sure, youve heard the word and you probably even know that it is a particular type of cancer. Find out why its so deadly and how to avoid it. Find out about dehydration and sunstroke Discover the proper procedures to follow when using any type of tanning method. Find out even more You can also learn about exactly how the skin tans. There really ARE some benefits to sunlight. You just need to learn the ground rules about how to expose yourself to those rays Did you know that winter sun can be just as deadly as the hot summer sun? Many people

have no idea of the potential dangers and head off to the ski slopes unprotected. You should also be aware of the health effects of using sun beds. Do you know the downsides of both sun and sunless tanning? You should if you are considering either method. The Sunless Tanning Guide explains it all.
