Hi! Here is the best of my work published in STAT News and elsewhere. Each piece has been reedited and updated to include the latest information available. I hope you enjoy every single article. And that you find great ideas throughout to help you start or improve your website, one that succeeds in producing ever greater profits. How To Use 1001 Newbie-Friendly Tips Many will prefer to simply read it from beginning to end. However the Table of Contents is designed to make it easy to select items of interest. And to return to them at your convenience. The reason for this is in two parts. First, on a given day, you may have no interest in many of the topics. But when you do need the information, you will find it easy to select the appropriate article. Second, as we read about something we really need, we do so with care. We may take notes, even reread it, just to be sure we have it locked in our minds. But when we turn to paper or a computer screen, we often find what we thought was clear, is not. The Table of Contents makes it a snap to go back for another look. Dont Miss These Opportunities
