ResellProducts.tradebitPrice: \$0.97 Do You Have Your Own Affiliate Program?... "Here's A Quick And Easy Software Tool That Will Help You Pay Your Affiliates Every Month" Dear Friend, If you're running an affiliate program, you need to pay your affiliates every month. Your affiliate script or system probably generates a list of payments to be made, but unless you're really lucky, it will not help you to actually make the payments. Many affiliate programs are now making payments via Paypal, as a quick and easy way to transfer money. If you are already doing this or are considering this, you will love our special Affiliate Paymaster software. Paypal offers a facility called "Mass Pay", designed for making lots of payments, however this is not available in all countries. For many marketers, it can also be quite daunting to use as this is a rather technical system which transfers large sums of money to lots of different people automatically. The alternative is to pay each person, one at a time using Paypal's Send Money feature. This is of course slow and it's very easy to make a costly mistake. Affiliate Paymaster is a brand new, easy to use Windows tool which automates making these payments for you, saving you time and effort, while reducing the chances of making expensive mistakes. Just take the list of payments generated by your affiliate script and paste it into the box on the software. Enter the name of your affiliate program and click the button. Affiliate Paymaster will instantly show a payment page like the one shown below. As you can see, for each payment to be made, the page shows details of the payment and a Paypal "pay now" button. To make your payments, just click on each Paypal button in turn, causing a web browser window to open at Paypal with all the payment details already set up. Just enter your Paypal password, click the confirm button to make the payment, then close the web browser window to move onto the next one. As each payment is made, a red tick appears next to it, ensuring that you do not accidentally pay someone twice. Your entire payment run is completed in a matter of minutes, making the whole process quick and painless. Affiliate Paymaster is compatible with any affiliate script or system which creates payment data separated by commas, tabs or spaces and it doesn't care what order the data is in (it will sort it out automatically). This means that it will almost certainly work with whatever script or system you are using.

This simple software can save you so much time, effort and hassle, not to mention substantially reducing the scope for costly errors. Full Master Resale Rights FREE Affiliate Paymaster is a great tool - but I'm going to make it even more valuable for you, by including full Master Resale Rights free! This means you can sell the software yourself and keep all the money. Just make one sale to recover your investment. I'll even give you a copy of this ready-made sales page to make it really easy for you. Just add your own order button to the ready-made page, upload to your own web host and you can be ready to take orders instantly. You can also use the software as a valuable bonus with other items you sell, or include it in packages and membership sites, or give it away free as a valuable bonus for your newsletter subscribers. All This For One Low Price Affiliate Paymaster can save you lots of time, effort and hassle with the important task of paying your affiliates each month. With all these benefits, I'm sure you'll agree that the low price of just \$4.97 with full master resale rights represents a true bargain for this software. Despite the low price, I know you may still have a few lingering doubts as to whether this software will really work for you. That's why I'm offering my 30-day, no risk, 100 money back guarantee. If at any time within the next 30 days, you decide that this software doesn't meet your needs, just send me a quick email and I guarantee to refund your money in full, no questions asked. I cannot say how long I will continue offering all this at such a low price. The price could go up at any time without notice, so please order now to avoid disappointment. Please Order Now For Just \$0.97 You'll receive instant access to your software by Internet download. Requirements The software is for use on PCs running Microsoft Windows.
