Mastering the Product Synergy, Downline Development Tactics, & Techniques to Building the Best Network Marketing Company! Down the Rabbit Hole Welcome to Show Me The Plan - Part 2! Although this book is the second part of a 2 part series, the content here is designed to be stand-alone and each book is written with lessons applicable for every aspect in network marketing. Let me just give you a few facts to ponder about: Average network marketing companies today spend roughly a few hundred to a thousand dollars on Compensation or Marketing Plan Training in just hall/training room rental, speaker salaries and question and answer sessions! And to think that most people assume that plans are all about numbers only. If you plan to recruit professional networkers (people who do network marketing for a living), and you hope to bring over their entire organization of maybe 50 - 2,000 people, your chances of sponsoring them is close to zero unless you are an influential leader yourself AND you know your companys marketing plan even better than the company themselves! These facts are definitely worth pondering. If I am running my own network marketing company, imagine how much money I would save. On the other hand, if I were building a network, I wouldnt want to lose my people to networkers in other companies because of lack of training! If I am not careful, I would lose up to tens of thousands of dollars! In this book, we are taking a more in depth look at plan mechanics as well as practical steps to boost your career. Learn the tips and tricks how to: Avoid the various pitfalls of typical plans and how to use them to your advantage Stay in control in spite of quotas and use them to drive your team to success How to use products and create a cash flow generating machine Work with the right people and the right plan to become a networking juggernaut Learn other nifty secrets your upline might be too busy to teach you In the words of THE MATRIX: Those of you, who are ready to take the red pill in network marketing to get to the truth behind the confusion, get ready to find out how far down the rabbit hole goes.
