Fire Your Graphic Designer And Forget Buying An eCover Creator Software Because In 5 Minutes, You Will... "Discover How YOU - Or Anyone - Can Easily Create Your Own Professional eCover In Just A Few Minutes without Having To Hire An Expensive Web Designer OR Use A Third Party Software!" Find out how YOU can easily churn out one professional eCover after another for every new product you have and feel sorry for others who didn't discover this easy, low-cost alternative which can be responsible for saving themselves hundreds of dollars from feeding hungry, greedy graphic designers or buying expensive eCover Creator Tools that don't give you desired results! Dear Friend, You have just completed your newest digital product and it is almost ready to enter the Internet marketplace. Almost ready... yeah, right. The Internet marketplace completely saturated with many other digital products, thus making your product stand out of the crowd is sure going to be a challenge. Suffice to say, first impression counts. With prospects waiting to be customers on the Internet, they can't touch or feel anything digital in nature letting alone taking a peak into them! And first impression is so crucial, it can very well be the deciding factor between YOUR product and your competitor's. Since your prospect can't even get the icing of the cake and that he has to choose ONLY ONE product, which one would he choose? The most expensive-looking one, of course, price-to-price or not. You certainly DON'T want to lose a lot of potential sales simply owing to lousy-looking eCovers you use for your product no matter how good your sales letter may be, because the bottom-line is that your prospects are seeing your digital product at a glance, and it takes a good 5 seconds for your prospect to either stay or turn away. Another school of thought says that if you're going to be in business, dress in a business manner! After all, dressing your product well by giving it a professional looking eCover goes to show how serious you take your business and your prospects will be able to tell that, consciously or not. So, What Are The Solutions? Look, the truth is that, we'd like to buy what we CAN see, though digital products can't be touched or felt unlike tangible products. Now, let's check out what options you have in creating your own professional eCover: Hire a Graphic Designer. You can hire a graphic designer to get the job done for you... that is, if you don't mind forking out at least \$99 for having one professional eCover done for you. And that is only

ONE. You might or might not have the money to afford a graphic designer. And if you need to have some adjustments made to the eCover, it might cost extra on your part to have the same graphic designer make any changes to the eCover. I don't think this what you REALLY want, right? Let's check out your next option. Get a Tool or Software that creates eCovers for you. You can create an unlimited number of eCovers with such leverage that you suspect these wicked tools are ready to put graphic designers out of their job! But the question is: can you produce PROFESSIONAL eCovers that you've been wanting so badly? Whether you like it or not, you still need to have a certain degree of graphic designing skills to utilize eCover Creating Programs. In addition, more often than not, you will just NOT like the results you get from using these programs. I know it because I've used it myself before. Which Leaves The Third And Best Option For You...
