Regards, Thomas Salvador. P.S. What is this .diz thing? .diz files are regular text files, you can open in your favorite text editor. The extension .diz is used to enable you to put the whole product AS-IS in a blog tool. This way you do not need to worry, that these lists/descriptions (a.k.a. not-gardening-content) get published on your site. The blogging tool should only process .txt-files. Hence .txt is used exclusively for publishable gardening content, but not for internal information. It is just used to make your life easier. P.P.S. Visit salvador.tradebitfor more quality products.
