The Secret to a Happier and Healthier Life Exclusive Offer! Never Before Revealed Information! Dear Friend, Everywhere you look, people want to know why they're unhappy. And they want to know what they can do about it. Have you ever asked yourself why intelligent people let bad habits keep them from living happier and healthier lives? I ask myself that question all the time. We live in a world where 30-second commercials offer instant solutions. We shouldn't be surprised when easy solutions don't work: There are no magic bullets, no quick fixes on the path to lasting change. People are overwhelmed with options today. It's beginning to seem that the more solutions there are, the harder it is to find one that works. Programs that promise easy change fail because they gloss over the necessary stages that people have to go through on the path to lasting change. People who regain more weight than they lost by following the latest fad diet are victims of programs that ignore the need for a lifestyle change. Many people have learned the hard way that lasting change is only possible when you have the right information. New Year's resolutions usually fail. They don't work because people jump into them without the right preparation. As I learned from my own experience, you can't be successful in the action stage if you haven't been successful in the preparation stage. Most people make New Year's resolutions when they wake up with a hangover or with a few extra pounds weighing them down. They haven't done the necessary preparation to have a fighting chance to be successful. It's no wonder so many people give up before January is over. My research, as well as my experience and common sense, tell me that anyone can change, if you have a compelling reason to change and the right strategy to guide you. The first step is to get unstuck. Many people spend years telling themselves that they're going to change one day. They spend years worrying about the problem instead of working on it. Maybe they're waiting for the perfect weight-loss program, the perfect smoking-cessation program, or the perfect time to stop drinking. I'll change when the time is right. How many times have you heard that one? Many people are never able to make a serious commitment to change, even though their life depends on it. Imagine What Life Will Be Like When You're Free... Even good change threatens our sense of security. When you're used to something, the thought of losing it can

cause you to panic and get stuck where you are, no matter how much you have to gain by changing. Your capacity to shift your focus from the past to the present is the key to breaking bad habits. You cant make a decision to change as long as youre still focused on the past. Learning that you can choose your own feelings, words, and actions makes you a free person and a powerful person... This special guide will give you the information and strategy you need to free yourself from bad habits forever. Did you know that: 45 of clients who seek a professional therapist drop out of therapy after two or three sessions?
