One of the quickest ways to make money on the internet is to build a list of prospects who are interested in making money online and who want to learn more from you. You build a relationship with them by providing quality content for them to read and watch and then promote useful products to them every so often. It really is as simple as that! So, What's The Plan? You see, Email marketing is deadly effective and definitely one of the fastest ways of making money online. It's traffic at the click of a send button! I want you to build your list, establish a relationship with them and then be able to offer, (notice I didn't say sell) to them. How Do I Build A List Fast And Make Money In The Process? Luckily you don't have to worry about this part because I've prepared all the landing pages and download pages and special offer sales page for you. All you have to do is insert your opt-in code, upload the files and drive traffic to that site! The best way to get a high sign-up rate is to give! Whoever is looking for information on how to make money on the internet - give it to them! Not only that, but make the page good enough so that they would be silly not to sign up to your list! Super Signup System Includes: 1) 7 Giveaway Information Products You will be giving away quality information products on popular topics that others could quite easily charge for. Doing this will place you as an expert in the field of multiple internet marketing related subjects whilst showing your subscriber that you provide REAL value to them! 2) High Converting Squeeze Page! You will receive a full give-away landing page designed for high opt-in rates! Simply enter your auto responder opt-in code at the bottom of the page and you're ready to upload! Add your own picture on the landing page to personalized it! 3) The Confirmation Page You will also receive a confirmation page to ensure that your prospect signs up! This part of the sign up process is very often overlooked! Many list servers require your prospect to 'double opt-in' before you can start Emailing them which is why a confirmation page is necessary! 4) The Download Page Again this part of the process is very often overlooked because most marketers simply send their PDF report or zip archive straight through to their prospect. You will now be able use your auto responder to send your prospects to a full download page so they feel like they've been looked after! 5) The One-Time-Offer Sales Page Now I'll leave this up to you how you want to go about using this sales page. I personally would send your new subscriber to this

page first just before they are sent to the download page above. Alternatively, you could let your subscriber download and read the eBooks, give them a couple of days to digest the information, then present them with this offer using your auto responder! 6) The Master Resell Rights Download Page Again, if your subscriber invests in the one-time offer, you will have a ready-made download page to send them to. This will save you valuable time! 7) The Quick Start Guide The Super Sign Up System was designed for the beginner in mind. Even if you've never set up your own squeeze page or built your list this step-by-step guide will tell you what to do! It doesn't get any easier! That's 7 Core Components To Building Your List Fast Whilst Making Money Along The Way! Putting a system like this together can take several hours even for experienced marketers! But your time is too precious to go through all the technical details. You're a marketer and you want to get straight down to business and start promoting your landing page and to build your list because that IS where the REAL money is. I spent ages trying to figure out how to build a list quickly, build a relationship with them and make money in the process. Now you're going to take my knowledge and work and apply it with these 5 important HTML pages, information products and quick start guide!
