Over 40 mb then wonderfull bonus for your new member WoW Master Resell Rights To This Entire Package!.. One of the quickest ways to make money on the internet is to build a list of prospects who are interested in making money online and who want to learn more from you. You build a relationship with them by providing quality content for them to read and watch and then promote useful products to them every so often. It really is as simple as that! How Do I Build A List Fast And Make Money In The Process? Luckily you don't have to worry about this part because I've prepared all the landing pages and download pages and special offer sales page for you. All you have to do is insert your opt-in code, upload the files and drive traffic to that site! The best way to get a high sign-up rate is to give! Whoever is looking for information on how to make money on the internet - give it to them! Not only that, but make the page good enough so that they would be silly not to sign up to your list! I've created a page for you which displays all the products they will be getting for free. Take a look below..

1. 7 Giveaway Information Products You will be giving away quality information products on popular topics that others could quite easily charge for. Doing this will place you as an expert in the field of multiple internet marketing related subjects whilst showing your subscriber that you provide REAL value to them! Not only that but you will have access to the eBooks yourself, but you will automatically own master resell rights to them so you can resell them as your own. A resellers kit will be provided
2. High Converting Squeeze Page! You will receive a full give-away landing page designed for high opt-in rates! Simply enter your auto responder opt-in code at the bottom of the page and you're ready to upload! Add your own picture on the landing page to personalized it!
3. The Confirmation Page You will also receive a confirmation page to ensure that your prospect signs up! This part of the sign up process is very often overlooked! Many list servers require your prospect to 'double opt-in' before you can start Emailing them which is why a confirmation page is necessary!
4. The Download Page Again this part of the process is very often overlooked because most marketers simply send their PDF report or zip archive straight through to their prospect. You will now be able use your auto responder to send your prospects to a full download page so they feel like they've been looked after!
5. The One-Time-Offer Sales Page Now I'll leave this up to you how you

want to go about using this sales page. I personally would send your new subscriber to this page first just before they are sent to the download page above. Alternatively, you could let your subscriber download and read the eBooks, give them a couple of days to digest the information, then present them with this offer using your auto responder! 6. The Master Resell Rights Download Page Again, if your subscriber invests in the one-time offer, you will have a ready-made download page to send them to. This will save you valuable time! 7. The Quick Start Guide The Super Sign Up System was designed for the beginner in mind. Even if you've never set up your own squeeze page or built your list this step-by-step guide will tell you what to do! It doesn't get any easier! Revealed information.. - How to set up digital delivery - when someone buys your one-time offer, you will want to deliver the download page to them. This guide will show you how to automatically send an email out to them with and without scripts! - How to set up your template system - there is a logical process in setting up this system. Get 1 component out of place and it can be a headache putting things together. Get it right from the start! - The raw PayPal button code - you will learn which parts of the PayPal code you need to edit. This will set the pricing, item name, the download location and more. Most importantly it will make sure YOU get paid! - How to create your web capture form - every single little step needed to create your first web capture form is illustrated for you. If you're a point-and-click, do this and do that kind of person, you won't miss a thing! and much more..
