Amazing Mini Site Template Professional and Nicely Formatted Mini Site! No tech skills and no special software required. Use any HTML editor you already have. If you don't know anything about CSS and have little HTML skills, don't worry, this template is very easy to use. There is no advanced coding and "tech weirdness" involved. It's a basic "what you see is what you get" template. No advanced technical skills required and no special software required. You just need some basic HTML skills and any HTML editor you already have. You can use this template as a foundation of your new mini sites, instead of starting from scratch. Or you can take the parts you like and add them to your existing template that you already use. You get pretty much everything you need like all the different headlines, bullets, testimonials boxes, etc.. Plus you can add your own graphics or CSS styles. To make it super easy for you to spice up your sales pages, you also get different graphics and design elements (checkmarks, bullets, order buttons, guarantee signs, arrows, etc..) in different styles, colors and sizes... With all the different style, color and size variations there's several hundred elements in this graphics library. You'll get PSD source files to the template design, the header, and most of the other graphics elements. So you can further customize things. You don't have to use these PSD files, since these templates are already formatted and ready to go, but if you want to modify any part of the template or the graphics elements, you can. So you get tremendous flexibility with all this, and you can truly create your own unique mini site design, look, and feel. P.S. This template (and all variations of the template) comes in simple HTML format, with some CSS styling. It's a basic "what you see is what you get" template. No advanced technical skills required and no special software required. You just need some basic HTML skills and any HTML editor you already have.
