The .diz files are regular text files, you can open in your favorite text editor. The extension .diz is used that you can put the whole product directly in a blog tool. This way you do not need to fear, that these lists/descriptions (a.k.a. not-dating-content) get published on your site. The blogging tool should only process .txt-files. Therefore .txt is used only for publishable dating content, but not for internal information. It is just used to make your life easier. Get 25 dating PLR articles, #22 now! Tags: dating cash
