The definitive 'hard dance' sample pack has arrived! HARD DANCE CONSTRUCTIONS features everything required to produce top-level dance tracks. Includes five HUGE construction kits. You can hear the full mixes of these construction kits by clicking the play button. THE CONSTRUCTION KITS: Each construction kit includes the main audio mix. We have broken out all of the elements of the construction kit into separate files. Each part has been isolated so you can choose which parts you want to use in your mix. You can use as little or as much as you like. All parts are "looped" so you can simply drag and drop the desired parts into your music sequencer. EDUCATIONAL USE: HARD DANCE CONSTRUCTIONS also serves as a 'Masterclass' for producers looking to improve their production skills. By studying the construction kits in detail, the elements and the way everything is put together, you can learn how incredible dance tracks are put together. This kind of knowledge is invaluable for all aspiring music producers.
