

# Kunaki Automator Cd/dvd Script

[DOWNLOAD HERE](#)

CD+DVDAutomator makes sales for you so you never have to print, package or ship CD's or DVD's yourself ever again. All of a sudden, delivering CD's and DVD's (even sets!) can become as easy as selling a downloadable product! CD + DVD Automator is a PHP script that makes it easy to sell and deliver your CD's and DVD's 100 HANDS-OFF! Using CD + DVD Automator you can sell your content, scripts, software, videos and more through PayPal then have them burned, printed and delivered to your customers automatically by Kunaki.com's fulfillment service! You never have to burn CD's or DVD's, print the CD /DVD jackets and inserts, label, package or drag your packages to the Postal Office ever again! This flexible script allows you to sell and deliver your CD and DVD as easily as selling an ebook or digital product using Kunaki.com's XML service. CD + DVD Automator is the break through software created specifically for marketers that sell information, music or digital products that works hand-in-hand with Kunaki to... Allow you to get paid the second each and every order is generated for your CDs and DVDs.. No more waiting weeks or even a month or two to get paid. Now you get paid instantly into your Paypal account. Make MORE sales... When you're getting paid immediately, you now have the option to pay your affiliates IMMEDIATELY, instead of in a month or two. Imagine how much more inspired your affiliates will be to make your sales if you're paying them the same week or even the same day! This alone can make your sales go THROUGH THE ROOF! Enjoy more flexibility... CD + DVD Automator creates your sales page(s) for you, displaying the image(s) of your product(s) in a shopping cart. This means YOU control your sales pages, not Kunaki. So you can change prices in the blink of an eye. Want to run a sale today? You Can! Want to create a special order page with special terms just for your JV Partner? You can! Want to use scarcity to sell by creating a limited offer for the first 50 buyers? You can! Want to raise the price every day (or even every hour) to encourage people to act fast? You can! Build your mailing list of BUYERS, possibly doubling your income... Information is power, or rather, the USE of information is power. You'll capture the name and address of every one of your buyers. Use this golden list to mail out special offers and promotions. Internet marketers have reported that combining snail mail with their online marketing efforts can DOUBLE your sales. And it makes sense. Emails are deleted with the click of a

button. Letters are real mail, regarded more highly, and more likely to be read and acted upon. Fill orders FAST... CD + DVD Automator will automatically and immediately send each customer's order information directly to Kunaki for fulfillment. No need to collect orders and hand submit them. CD + DVD Automator sends Kunaki the customer's order, address and requested method of shipping the moment the order is placed. You don't need to lift a finger. And your customer receives their order sooner, while they're still excited and eager to have it. Reduce mundane customer service emails... CD + DVD Automator creates an Order ID Number for tracking. This tracking number is then automatically and immediately sent to your customer. Again, you never lift a finger. And the customer feels secure in knowing their order is on the way. And since they can track their own order, customers won't need to contact you asking where their package is, resulting in fewer customer service emails. This frees you up to do important things (like golf?) Make you look good... The moment Kunaki receives your customer's order, they begin the process of creating your full-color, glossy, fully assembled, cellophane-wrapped, retail-ready product(s). These are then drop-shipped to your customer(s), according to their order and preferred method of shipment. Did we mention that you get paid IMMEDIATELY? :-)

No more waiting a month or two to get paid. You get paid IMMEDIATELY on each and every order you and your affiliates generate. As you can see, CD + DVD Automator allows you to completely automate the way you sell and ship your CDs and DVDs! The script will automatically do several things at once: It will create a page that displays the images of your CD/DVD product(s) directly from your Kunaki account - built-in stand-alone shopping cart that automatically calculates price, International shipping options and total included! It will collect your buyers shipping information! It will take their payment via PayPal (no PayPal account required) and immediately credit your PayPal account! It will submit their shipping information and product(s) ordered to Kunaki for fulfillment! It will create an OrderID # for your buyer and send them an email containing their order information as a receipt and for tracking! It will send you an email with the buyers name, shipping address and Order ID #! It will submit the order to Kunaki via it's XML service to burn, print and ship your order to your buyer - automatically!!
