The aim of the game is to place a numerical digit 1-9 in each cell of the 9x9 grid so that each row, column and 3x3 block contains only one instance of each number. Unlike other Sudoku's games that simply rotate and flip a generic set of puzzles, 4Pockets Sudoku generates puzzles to match your skill level. We have also added a hint system to help you learn some of the more difficult moves, so if you are a beginner you can learn as you play. 4Sudoku PC Edition specifications: Download Size: 1535 KB Other System Requirements: Windows Operating System - Game will display in 240 x 320 Pixel Window 4Sudoku PC Edition support Support email: tracy@limelight-software.com 4Sudoku PC Edition manufacturer 4Pockets.com Concept House Ealand Science Park - Wharf Road DN17 4JW Ealand 4Pockets.com Tags: numbers, tetris, crossword, puzzle
