How To Pull Money Have You Made Any Money From Your Resell Rights Products Yet? "Sick To Death Of NEVER Making A Cent With Resell Rights Products?" It's A Bold Statement But The Reality Is That If You're Still Reading This Then You're Probably One Of The Estimated 90 Of People Who Buy Resell Rights Products To Sell Them For Profit -- But Don't End Up Making A Single Penny It's true. How do I know, because that was me not too long ago. I would stock up on resell rights products as fast as they were released. I had tons that were collected from giveaway events, dime sales, firesales, resellers sites, membership sites and every place imaginable. I wanted to experience the same earnings other marketers were boasting so I scooped up every package available, everything from baking to articles to software even the collections of thousands of ebooks ready to make a fortune and then... nothing... not a damn thing! Dear Internet Marketing Friend, If youve been struggling with how to really make it and send your online profits through the roof - then this is definitely the most important letter you will read today! Show Me The Money? Where were the stacks of money marketers were boasting you could make from resell rights products? because I must have blinked and missed it, I wasn't seeing that at all. No matter how hard I tried, how many expensive PPC campaigns I placed, how many articles I wrote, how many email and ezine ads I paid for, I just couldn't make money with resell rights products. Why wouldn't they sell? it should have been a no brainer as far as I was concerned. To my surprise people avoided them like the plague. Why? I mean lots of others were selling them, surely they were raking in the piles of cash. All those people couldn't be wrong. The truth I found out later was that most people selling their resell rights products weren't seeing a penny either and it was because they were doing it all wrong and I was one of them. It was the other 10 of clever resellers that were hovering in the cash that we, the clueless other 90 was missing out on, and I wanted in. No matter how many failed attempts at selling my resell rights products I didn't want to give up. I knew that to turn my luck around I had to get a clue and figure out what I was doing wrong. Obviously it was something I was doing and my pathetic Paypal balance proved it. My Solution To My Plaguing Problem I went on a learning rampage. I snatched up every ebook I could find and subscribed to every newsletter that would help me to solve the riddle of why I sucked at selling resell

products. From all the materials I purchased some had great information while others were crammed with filler and palmed off as a poor excuse for a product to get me to part with my money, and I did. Looking back at those little mini reports they really had no idea what they were talking about. The steps to properly resell information was flawed and obviously not tried and tested. Most of the information I came across was often incomplete and scanty and the author assumed the reader had prior knowledge of the information leaving me frustrated and confused. So no matter which rung of the ladder I'd climb onto I always seemed to be missing a step. I would end up in the middle of a resell rights process without ever knowing how I got to that point in the first place. My Math Teacher Was Right... I once had a math teacher who taught that every expert in any field must first master the basics before they can master that field and it's true. When you miss important steps it's difficult to move ahead because you need those foundations in order to progress. What I found is each ebook only had part of the puzzle, what I wanted was a complete picture from A to Z that wouldn't leave me guessing and wondering what to do next. Start here, then proceed to B all the way up to being profitable at Z. There were so many information gaps that I had to try to fill myself so I retraced my steps back to the beginning and I researched to fill in the gaps of knowledge I was so desperately lacking. What I Discovered... I finally learned what I was doing wrong the whole time and why I wasn't making a penny. Once I stopped blindly following the crowd like a sheep, the money began to flow. I learned why it took me so long to take action and it was being overwhelmed by too much information that froze me dead in my tracks. Once I found the right process and cut through all of the unnecessary information everything became easy, like a light bulb went off. Once I figured out where to start each and every time, I took immediate action. The process became predictable, I knew that if I found some great resell products with the potential to make money, they often would give me a nice predictable income which gives me peace of mind in this economy. Let Me Ask You This... If all of the guesswork were removed and you knew for sure you could make money by using a proven system that delivers over and over again, would you use it? Sure you would. I know you're feeling as frustrated as I was, it's easy to when you don't know where to start, it's like drifting in the middle of the ocean without knowing which direction to go in.
