This lovely little book is to be the first of a series reflecting decades of work by the author, Jean Warner, who takes her inspiration from events large and small that she observes in a word filled with wonder. Also reflected in her work is a high respect for form and structure. She has mastered the poetic form in both its formal and informal aspects, and readers will respond naturally to the list of the rhythm and the order of the rhyme. Wonderful as a gift, it can be given to people of all ages beyond elementary school, and it will be treasured by many for its combination of simplicity and depth of life perception.
