

# Instant Gallery Script

[DOWNLOAD HERE](#)

Instant Gallery Maker will allow you to quickly and easily create professional-looking web image galleries ready to be published on the Web. Creating web image galleries has never been easier - just press a few buttons and let Instant Gallery Maker do the entire job for you. The program features wizard-style interface and is manageable for anybody, including those who have absolutely no idea of HTML and image processing. If you are not satisfied with your new image gallery appearance, you can easily customize every single detail. The program comes packed with a number of gallery templates created by Neowise Software designers, and you can easily create your own and save them for future reuse. Instant Gallery Maker recognizes all popular image formats and uses advanced algorithms for resizing images and creating thumbnails. If you have some knowledge of HTML, you can customize absolutely everything: change pages layout, use your own cascading style sheets, add links to outside pages and more. The evaluation version is fully functional and it does not make any changes to your images unless you request them.
