Digital Product Demon - Wp Plugin Scripts

[DOWNLOAD HERE](#)

- Easily sell digital products with just a PayPal account - PayPal is easy to use, but it doesn't provide a way to hide your ThankYou page or protect your download links. Digital Product Demon makes it easy to do both. It'll hide your Thank You page so that only valid customers can access it and it will expire your download page and encrypt your download URLs so that your links can't be shared or posted on "pirating" forums. - Support multiple products in a single ClickBank Account - Digital Product Demon lets you use separate sales, thank you, and download pages for each product you define. That means that you can place multiple products in 1 ClickBank account but still display individually crafted sales pages for each product. - Automatically cloak your affiliate links - The benefits of cloaking affiliate links have been discussed frequently on this forum and elsewhere. Digital Product Demon's AFFILIATE mode handles this for you automagically! - Protects your Download Pages - Download pages can only be accessed through a link that includes the buyer's purchase information. These pages are also set to expire after a period you specify - usually 3-5 days after the purchase. - Protects your Download Links - create ugly, cryptic, expiring links that can't be easily shared or posted on freebie forums - Hide your digital product's actual URL - anyone who sees your download link won't have a clue about what your download filename is. Everything's all screwed up with numbers, letters, and special characters that don't mean a thing to anyone but Digital Product Demon Plugin . - Automatically generate PayPal, ClickBank, and EJunkie payment buttons - saving you tons of time fighting PayPal's button factory or customizing your own ClickBank buttons. INSTANT AFFILIATE PAYMENTS! Allow "affiliates" to sell your products - with no affiliate sign-up required. No Need to Do "Payment Runs" - Because affiliate payments go directly from the customer to your affiliates, you don't have to manage affiliate payments or worry about end of the year IRS reporting. Viral Sales Incentives - by offering 100 commissions paid out immediately on your product to anyone with a Paypal account, you can create a super environment for viral sales Uses the standard, WordPress admin area - for configuring and maintaining your site. Registration Process for Affiliates - allows affiliates to choose their own affiliate ID by registering for your affiliate program. This allows them to keep their Paypal address private. Built-in Basic Mail - Email individual affiliates, groups of affiliates, or

broadcast mail to ALL affiliates directly from the administrative area. Affiliate Reporting - lets you view sales, total sales generated by each affiliate, payments made to affiliates, and who (you or the affiliate) is to receive the next payment. Basic Affiliate Area - lets affiliates view their performance summaries, see who receives the next payment for a product, and maintain their affiliate profile
