

Brute Superfly 2.1.2

[DOWNLOAD HERE](#)

If you are getting traffic this is a must have plugin. This is the most advance and one of a kind plugin out there. With sooo many features it is hard to list them all in one thread. Even more coming! This plugin was designed to turn your traffic into money plain and simple. First allow me to tell you how this came into being. About two years ago I stumbled across a website that allowed me to generate THOUSANDS of visitors to me site in a days time. It was nothing illegal it was pure and simple Bum marketing 2.0 with N4G... I love it when people tell me Bum Marketing is dead it is VERY alive the only thing that has changed is WHERE you do it. Anyhow on with the story. I could not for one second monetize these visitors. What was worse i could not content lock this site as it would ban me from the site. There was hundreds and hundreds of authority niche sites linking back to me and republishing my articles. This alone was creating me HUGE amounts of traffic. So for some time I searched for an answer. Then it came to me. What if when they came to my site they saw my blog but all these extra visitors from these other sites what if they where my meal ticket. What if instead of showing them my page I showed them a niche related offer or affiliate page. So I got busy and had just that done. The results where astounding it made me poop my pants. All these sites linking back to me was making me money and a nice chunk of money at that as they where sending me targeted traffic to the toons of 2 or 3k a day. This was making me about 200-300 a day. 200 bad 300 good . The best part was I was doing nothing special at all. The exact same thing I normally do and making 100 times more money. Doing this before was only making me about 2 or 3 dollars a day. So you can see how this had helped me tremendously. So I spent some money on development to make it better for my own personal benefit and a few months later Brute SuperFly was born and Here I am presenting possibly the best plugin ever made for WP to you.
