NOTE: Be sure to use the included license key to avoid ads being included in the software. It seems to be a browser for children to use where they are only allowed to visit pre-approved websites. Windows and Mac versions provided. Who Else Wants To Get Their Hands On A Killer Brand New Software Geared Towards Childrens Internet Safety And FUN? This easy to use browser allows you to store your childs favorite websites and view those websites in a controlled and fun environment. Simply browse to the websites you want your child to access and add them to the list. Use rules to allow entire domains or restrict access to a single page or directory. Then switch to Kid Mode, a simple full screen browser with a custom homepage for your child. In Kid Mode your child can access all their favorite websites by clicking on the large website icons, but cannot navigate to pages outside that domain or pages that do not match your rules. Features: * Allows browsing only on websites that are approved by the parent * Easily add websites by browsing the web * Large icons on the homepage allows your child to easily find the links to their favorite websites * Customize your childs homepage with the included artwork, custom colors or your own images * Kid Mode allows easy browsing with three simple commands: Back, Forward and Home * Require a password to exit Kid Mode, limit browsing sessions, and view browsing logs * Kid mode is fullscreen and prevents accidental clicking outside of the program * Clicking on advertisements is prevented, and many advertisements are blocked completely using a built in list of ad servers.
