Super Simple Support Desk Script With Rights

Now You Can Have Your Own Powerful Support Desk System That Will Allow You To Support Any Web Site From One Install And Give Your Visitors A Seamless Experience *** HAVE A LOOK A THE FULL COLOUR SALES PAGE JUST CLICK ON Download free Preview AT THE TOP LEFT OF THIS PAGE You Don't Need...... A Database. Multiple Copies On Multiple Sites. Technical Experience Let me explain why I designed this very Simple Support Desk Script....... First, It's a well know fact that supporting your customers/prospects is a must to sustain your business and keep your customers & convert prospects into happy customers. So why not provide a simple seamless method for them to contact you. And that is what I have done.... What I don't see as a user friendly support system is help desks that require you to sign up just to issue a ticket. NOT VERY FRIENDLY IF YOU ASK ME! Also, some marketers use " FOR SUPPORT, SEND ME AN EMAIL, to name at mydomain.com".This is done so the email address is not picked up by spammers using software to scan for email addresses, but this is NOT USER FRIENDLY ether, the user has to open up there email client and manually write in your email address and if there're in need of urgent assistance it becomes a major headache. If you want to make your prospects & customers very happy , it's much more professional to make their experience seamless especially if they there're in need of your assistance, immediately. NOW...... You will be able to provide profession support while protecting your email address from SPAMMERS using software to collect email address. Spammers will find your email if it's not protected....It happened to me over and over again until I created my support desk script...Now I don't have to worry any more.... From watching my detailed video below, you will see... How Simple this script is to use. How easy it is to personalize the Support Desk. How It generates important details with out input from users.
