British Tv Anywhere Watch Bbc Iplayer, Itv Player Anywhere

[DOWNLOAD HERE](#)

As you may already know, if you are outside of UK many TV companies block viewing from outside their particular country by blocking the IPs coming from another country or at best limit the programs available for viewing online. Want to watch UK Shows on BBC iPlayer, ITV Player and more from utside of the UK . Now you can! a revolutionary new product, TV-Anywhere is for expats and travellers the world over who wish to keep in touch with their TV networks from home. What are your other options? Well, you can use free proxies that gives you UK IP address. But these proxies keep disappearing. You will need to find new proxies every time you want to watch your favourite shows. Also, these proxies are slow and most of them are unusable. If you have a computer in UK, you can try to create your own tunnel and access iplayer using your local computer in UK. You will need to keep that machine on all the time, and the quality of the video will not be good. You can also try an expensive sling box Features Gives you a UK IP address Watch BBC iPlayer, ITV Player, Demand 4 and many more From anywhere in the world! Comes with its own built in portable version of Firefox! NO configuration needed to your existing browser! NO contract! NO pop ups NO ads One click installation Fast proxy connections FREE! TV Anywhere is a easy to use. NEW IMPROVED SOFTWARE - ONE CLICK INSTALLATION gives you a UK IP address so that you can watch your favourite shows from anywhere. This softawre is used by millions of people in over 100 countries. One click installation and then you can simply connect to most UK channels online, and browse web as if you are in UK! Please Note: This is not software that list 1000s of TV and Radio channels that are freely available on the the internet and sold on such places like eBay. Dont be confused, these devices/softawre cannot access main stream TV programs. Although you can access other countrys TV programs with this software e.g. U.S.A. New Zeeland, Australia, Germany, France and more This software is configured to play UK TV. Please read the instructions to change the country codes. Min requirement: Windows 7/XP/Vista. Min 1GB Ram. 2 GB Recommended. Broadband connection.
