TexTally is a tool to assist typists to count the number of words, lines or characters in any document. If required TexTally can also be used to calculate a dollar amount based on a formula that you enter for billing purposes. This data can also be exported to a CSV file. TexTally works with almost all word processing programs and can be activated at any time.TexTally Word Line and Character Counter specifications: Download Size: 151 KB   Other System Requirements: Pentium 100 or above with at least 16MB RAM.
