

# Opay Script Create Your Own Community Bartering System

[DOWNLOAD HERE](#)

OPAY SCRIPT CREATE YOUR OWN COMMUNITY CURRENCY BARTERING SYSTEM A community currency program works by assigning a value for skills and products based on a point system instead of cash. Alternative currencies help entire communities make less impact on the environment as people buy fewer new products and share others. People build up points in the bartering community's currency that they can then use to obtain other people's skills or products. For example, if your skill is in furniture making and you make a table for someone, you get a certain number of points in whatever your scheme's currency is called. You may use some of those points to pay someone to do some babysitting for you.

OPAY is the better software solution to start your own bartering system. The OPAYS software is a system where members can buy virtual credits to spend at in the different members sites. Members can use their accounts to send money to other members, they can pay for auctions or purchase any other products with just a email address. 100 bug free and secure script can work through SSL. Admin area will provide you information about all transactions. WHAT CAN OPAY EXACTLY DO? Payment support for products, donations, subscriptions, shopping cart and simple payments. Fully supports automated recurring billing for subscriptions 100 template based. Allows you to completely customize all colors and logos, for a completely brandable site. Easily ban/suspend users. Designed for growth, allowing you to place different parts of the program on different servers with near instant synchronization. Allows for more customer funding options than the competitors. You can even allow customers to fund their account WITH the competitors (PayPal, E-Gold, NetPay, 2Checkout, Qchex, Authorizeand more). Offer escrow services with our built-in EZ-Escrow module OPay members can encrypt their Pay Now buttons. Members can perform mass payment. IPN (instant payment notification) support [More About IPN]. OPay members can list their items in the OPay Store Front REQUIREMENTS: - MySQL (version 3.23 or higher) - MYSQL database - PHP (version 4.2.3 or higher) - Crontab - SSL (optional) Modified Version Demo: Main Page: blizsoft.com/enterprise (username: test, password: testtest) Admin: blizsoft.com/enterprise/admins (admin username: admin, password: admin) Download Opay Community Currency Script!
