Finally, Discover How You Can Sell Your Product on Clickbank And Tap Into Thousands of Affiliates Without The Worries Of Not Knowing Where To Start...Starting Today! In this video series, you'll have access to ten short videos that show you how to setup, comply with Clickbank to get approved, sell, deliver, test, and maintain your Clickbank product. Basically in simpler words...Automate your sales process with Clickbank. Obviously we don't want you to become overwhelmed, so the videos are split up into bite sized chunks ...short and straight to the point, so you get what you want in a matter of time... And soon you'll have your Clickbank product up and running in no time! Here's a list of this 10 Part video series in more detail

Video #1 - Introduction to the Surefire Clickbank Mastery In this video series you are going to learn how to set up your product to sell on Clickbank. Setting up a product on clickbank will allow you to reach out to the hundreds and thousands of affiliates on the clickbank network, which is a huge advantage. In this particular introduction video, you will learn what tools you will need, how this system works, and more so that you are able to set up a product quickly and easily...and most importantly correctly.

Video #2 - What Products Are Allowed? The Dos and DONTs In this video you are going to learn which products are allowed in the affiliate network and which products are not allowed. Knowing this will set you on the right path to complying with Clickbanks rules and regulations which change often. We don't want you to make the mistake of setting everything up only to find out that you can't add it to the Clickbank system. We will also go over the dos and donts.

Video #3 - Vendor Checklist After you understand what products are not allowed to sell and what products are allowed, it's time to figure out exactly what you need to have in hand so you can properly begin the process of setting up your product.

Video #4 - Sign Up with ClickBank In this particular video you are going to learn how to create an account at clickbank. Now while this may seem to be an easy step to do, there are a few things that you need to keep in mind when you create your username. There are a few things that can help you in the long run.

Video #5 - Create a Pitch Page In this specific video you are going to learn how to create a pitch page or in other words your sales page. In the previous videos, you learned what was allowed at the clickbank network and what was not allowed. The same rules apply to the pitch page. Clickbank is quite strict on

their pitch pages so you want to make sure you get everything done right, the first time around. For example the money back guarantee is one of the things that need to comply. Now while clickbank rules will often change frequently, these are a few things that you need to keep in mind when creating your pitch page. Creating a good compliant page is important because you're going to need to get your page approved by clickbank before you can begin to sell. Don't worry about anything technical, we are going to cover as much as possible to show you how to set up a pitch page using a free WYSIWYG web editor. Don't worry, it is very very easy to use. If you know how to use Microsoft office or Microsoft word documents, then you should be able to use this web editor tool to your advantage. Video #6 - Create a Thank You / download Page Now it's time to set up your thank you page for your download page. You see, after your customer purchases your product through your pitch page, they are going to need to be redirected to your download or thank you page. Again all you have to do is follow me step by step and look over my shoulder in this specific video. You'll learn how to easily create a download page so they are ready to be uploaded to your website. Video #7 - Make a Payment Link and add to pitch page. Before you finish your pitch page and your thank you page you need to create up by button and add that to your pitch page. In the specific video you're going to learn how to create the proper click bank payment button so that you can make everything connected and working properly in order for your customer to get from your sales page to your thank you page you need a click bank on that cannot only detect this technology but it will enable you to create an automated system that allows you to run your online business 24 seven. Video #8 - Upload files thru ftp Now that you're done creating your pitch page, your thank you page, and your payment button...are you ready to upload all the files to your website so that you can be closer and closer to being finished? In this specific video I am going to show you how to use a file transfer protocol or in other words a simple software tool that allows you to upload the files from your computer to your website and make everything work. Video #9 - Site Information Completion While this video may sound too basic; many people often skip over it. By doing so, you hurt yourself in the long run. In this video you will learn how to complete your site information and products informations so that people can easily find your product either to buy or sell in the Clickbank marketplace. Video #10 - Test Payment Link In this particular video, you're going to learn how to test your system. Now you're done and you've setup your Clickbank product, it's time to test your system to make sure that it works. In other words you need to make sure that from the moment a customer steps on your sales page, that your payment button

works, your thank you page works, and everything else. Remember...The worst case scenario is that you dont do the necessary testing and when your site goes live it fails because you forgot to do proper testing. You actually lose customers when they cant access your product, so youll want to make sure you get it done right the first time around. Dont let that happen to you. That is why in this particular videos we are going to cover this important information.
