Here's An Easy Way To Get Traffic To Your Website Through The Popular Web 2.0 Social Bookmarking Services. Do you want a powerful new way to generate extra traffic to your website? You've probably heard of the Social Bookmarking sites like Digg, StumbleUpon and Delicious. These are web based services that allow people to bookmark their favorite sites, so that they can return to them again in the future. Since the bookmarks are held online, these services also allow people to share their bookmarks with others - and even provide valuable backlinks to the bookmarked sites. Now with Web 2.0 Traffic Generator, you can harness the power of these services to help boost your website traffic. The software allows you to create a special page on your website aimed at members of the top social bookmark services. On this page, you offer two special gifts that are exclusively available to members of the top social bookmarking services. You can offer suitable ebooks, articles, software or anything else you own. You create your web page with any HTML editor and then use your copy of Web 2.0 Traffic Generator. Web 2.0 Traffic Generator is a great tool - but I'm going to make it even more profitable for you, by including full Master Resale Rights free! This means you can sell the software yourself and keep all the money. Just make one sale to recover your investment. I'll even give you a copy of this ready-made sales page to make it really easy for you. Just add your own order button to the ready-made page, upload to your own web host and you can be ready to take orders instantly. You can also use the software as a valuable bonus with other items you sell, or include it in packages and membership sites, or give it away free as a valuable bonus for your newsletter subscribers.
