"Discover How One Simple Software Skyrocketed Our Sales By 128 And Pulled In 287 More Subscribers In Just Under 24 Hours!" Let's face it... The secret to making an insane amount of money online does not simply lie in clinching that front end sale. You see, not everyone who visits our site will purchase on their first visit. So if you do not have anything in place to capture leads and follow up with them, you're simply leaving money on the table! On the other hand, if you've managed to add a high percentage of your visitors into your autoresponder account, it will benefit you HUGELY in the future as it gives you the chance to build a good relationship with them (and to make sales with backend offers!). The usual way of capturing leads will be using the normal opt-in boxes. But here's the truth: The conversion rate is fast decreasing for opt-in boxes on sales pages! You need something that will be able to capture your visitors' attention fully! So Enter Popup Ads! For years, popup ads have been doing well.. UNTIL... More and more people started to install popup blockers.. and as a result, most popup ads get blocked completely nowadays! So we wanted a quick solution that is able to grab our visitors' attention and will help us increase our opt-in conversions, but yet is able to skip pass the sickening popup blockers. So Introducing... Instant Hover Ads In simple words, 'Hover Ads' do LOOK like pop-ups and FUNCTION like pop-ups, but that are NOT really pop-ups... AND... The pop-up blockers have NO WAY of detecting the 'Instant Hover Ads' you create with our software because it hovers into a regular web page! Now how COOL is that! Let's take a deeper look at how this amazing piece of Hover Ad Generator can build you a HUGE list & boost your profits: Just 4 simple steps to creating your first hover ad! (Doesn't require any technical knowledge at all due to it's user friendly interface) Code is automatically inserted! (Our software will automatically insert the required "code" into the webpage of your choice and create a new output file... so you don't have to sweat even if you are not too familiar with HTML) Able to create impressive and high converting hover ads so your prospects will be attracted to sign up willingly. This helps you convert a HUGE percentage of your visitors into subscribers... (which means more sales and profits!) Ability to determine the frequency/number of times the hover ad appears. (this means you have full control and do not have to worry about irritating your prospects) Full flexibility in setting the amount of seconds to delay

before your hover ad appears (so you can do your own testing and determine when's the best time to capture your prospects' attention!) Can implement the auto-scroll feature. (so your hover ad will follow your user when he/she scrolls down. This will really BOOST your conversions) Can select the 'exit popup' function so the hover ad only appears when the user leaves the page! (and catch them when they least expect!) Completely unblockable as hover ads are part of the web page instead of the normal popups (and you'll never have to worry about popup blockers) Works with all .html .htm and .php files (much more flexibility!). And much much more! Ok, perhaps you are now wondering how much will cost you to own this cool piece of software and whether we are going to ask for charge an insane price for it. Let's be frank, we are not interested in making an insane amount of money selling this tool. We are here to help you grow your online business by providing you tools that will help you grow your business and also put more money in your pocket. Before we go further and reveal the price, here are some facts you need to know: First up, understand that there are only a couple of other similar tools out on the market today and one of them sells for \$97! That may seem a tad overpriced but when you weight it against the potential benefits, you'll realize it can help tremendously in building your optin list at lightning speed and as well as increase sales in the backend. Hence, it literally pays for itself... Possibly in just a few days time!

Furthermore, 'Instant Hover Ads' was designed with the end user in mind... We've made it ultra simple for you and all you need to do is to follow some step-by-step instructions and you're able to create amazing hover ads for your websites in no time. Put it simply, this is a complete no-brainer! Here's the deal: Now we certainly do not intend to charge you \$97. Yes, the returns and amount of time saved it can bring for you by using Instant Hover Ads could quite be worth more than this fee. But we know for a fact that by charging such a steep price, it might effectively shut out many marketers who should be taking full advantage of such a fantastic tool but simply can't afford it at this point of time. You see, we've been well-known for over-delivering on the software we create and making it really affordable for the masses. Our past customers have all testified to that and we certainly want to keep it this way. So we have decided to make this technology easily accessible for just about any struggling marketer and set the introductory price at just a low one time fee of... \$27 Ok we shall be frank here.. We are doing this for a couple of reasons. One is we're seeking testimonials for this new software. Once we've received enough testimonials, the price will go up without warning! So again, \$27 is all it will take to own your own copy of 'Instant Hover Ads', but for a limited time only.
