

# Decompiler Ex4-to-mq4 Software (windows)

[DOWNLOAD HERE](#)

Complete Software decompile any ex4 to Mq4 (for Indicators / Experts Advisor) The software is to restoration EX4 source code to MQ4 files of all MetaTrader indicators and Expert Advisors. This is Version 4.0.224.1 (support 224 built MT4) and all EX4 files that created after 30thApril 2009. Currently there were 95 files are created after 30th April 2009, and you will have unlimited number of EX4 decompile files. You can edit the .Mq4 as you want. (Edit expiration date, Account number). There is no difference in running both ones. The only difference is the losses of the original names of variables. (You can rename it as you want). Tags: ex4, mq4, mql
