Real-Time Statistics About Visitors to Your Website Web based E-mail & control panel INS has an

experienced web development team with a large number of web sites to its credit. INS understands that a

web page not only presents the business to the world, but also that the Internet is an important medium

for transacting with a company's stakeholders. Because of this, INS maintains a high standard of quality

in all sites that it develops, in terms of aesthetic appeal, functionality, navigation, and overall effect. When

starting any project, our first step is to understand the purpose of the site. By making sure that we are in

tune with our client's needs, our Project Managers are better able to guide the development process, from

proposing features that should be offered on the site to basic idea conception, site development and

hosting. After the site has been completed, INS remains involved, offering site maintenance and back-end

support. Our clients rest assured knowing they have partnered with a professional, reliable, organization

to manage their Internet presence. Visit Live Portfolio inspk.com/website_portfolio.html----
