

Webpage Shrinker

[DOWNLOAD HERE](#)

Have You Ever Wished There was a way to Make Your Content Inside an I-Frame Search Engine Readable? Can you just imagine the possibilities for your AdSense and Content sites if this were possible? Wish No Longer! A New Software Program Creates a Content Box Like an I-frame with one HUGE difference, It is Search Engine Readable! First let me clarify, this software does not use I-frame code to shrink your content, it uses a little known technique of combining CSS with HTML that produces a search engine readable, scrollable content box that you can customize any way you want. I had just about give up hope on finding a way to minimize the visible appearance of keyword targeted content that I add to my pages to increase the keyword density, when I stumbled upon this code in a forum. Now the code I found was extremely basic, and to be honest I am no CSS expert, but I gave this code to my programmer and gave him the task of creating a software that would make it quick and easy to produce this code without very much effort or knowledge of code on my part. Shrink your Content, Shrink your FingerPrints, and Shrink your Competition! My programmer not only delivered what I asked for but he built in so many customizable features I did not even know was possible, and it took me less than a minute to produce the code to add to my pages! There are so many things you can do with this. The Content Shrinker Panel lets you control EVERY aspect of your scrollable box, you can change border styles, colors, backgrounds, fonts, etc.. If you are AdSense marketer this is a must have tool to add to your content page arsenal! Comes with a reseller site
