Description: Discover How You Too Can Launch Your Products To Millions Of Hungry Customers Through The Power Of Joint Ventures Full start to finish tried and tested joint venture guide. Proven methods of the successful joint venture. From your introduction and getting noticed, to your follow-up and securing your future and everything in between. Dear Internet Marketer, When I first started out in online business (almost seven years ago now) it always intrigued me to see marketers go out and pull a circulation of half a million potential views for their products just by getting themselves ten or fifteen deals with other marketers. Half a million targeted, almost guaranteed to be interested, ready to buy viewers, customers even. Wow. Imagine what that would do for your business. (This is usually the point at which I pull out my calculator and start playing with numbers looking at the earning potential, I dont know any marketer that doesnt do the same, so feel free!) So how did they do it? Well thats what I wanted to know too, especially as I was on a budget and didnt have much cash to hand, meanwhile they were doing all this for free. So I went around and bought courses, bought info products, bugged people in the know with all sorts of questions. The methods they were using all seemed suspiciously similar. Theyd say to me, its easy. Go check out google (or yahoo, and whats now known as Overtureback in the day) and search for Online Business. Then all you have to do is find the people who are successful, and e-mail them with your offer. Something wasnt right here. What was it? Think about it for a moment. If these marketers are really selling thousands of their How to Joint Venture products, then how many people are contacting everyone on the first 10 pages of these search engines! They must be getting hammered with e-mails. I gave it a shot anyway, heres what happened... All of these list owners were replying to me with Look, you have a good offer, but since these products started popping up telling people to just use search engines and contact the successful, Ive been inundated with more offers than I could handle in a lifetime. (Oh and trust me when I say that was was one of the kinder responses stating the same point). It became obvious to me what the problem was. These marketers may have used these tactics when they first started out, but it just didnt work anymore. This method was saturated (and this was almost seven years ago) yet no one seems to correct themselves or come up with alternatives to such an outdated technique, and how

can they afford not to when half a million or more circulation for a single product are at stake here?

Something had to change, and it did: It took me seven years, it took me more than \$38,000 to hone a new method for successful joint venturing, not to mention many many hundreds if not thousands of hours sitting in this very chair that I write to you from now, but finally, I did it, and now its all yours. Check this out.. (Hint: I didnt even contact a single big name marketer to pull this off or pull random names from search engines to make this work) P.S. Everything youre about to read is tried and tested material. This will apply to your business not just once, but for many years to come. Its an investment not just for today, but far into the future. PPS. Remember, this is 100 risk free. If for any reason you dont believe that you got your moneys worth, just contact us, show us how you put these techniques into action, and well give you a full refund. Thats how confident we are that this really does work. PPPS. Still not convinced this is for you? Well, it is your choice of course, but if you do go ahead and grab your download while we still have some copies left, you could well be one of these people in a few short weeks:
