Date: June 27, 2010 From the Desk of Martin Boyle, Dear Web Site Owner, Six months ago, I launched an information site - and that information site bombed. It bombed, we discovered, in the end, because we had no traffic. No plan for traffic. In fact, we put the site up and simply expected people to find it. And the main reason was because we didnt make a plan to promote the site. It was, a complete new marketer mistake, one which we wrote a guide to help YOU avoid. Are you having trouble with any or all of the following: Lackluster sales? Absolutely no Adwords income No sign ups to your opt-in list? No blog comments? It could be because youve got NO traffic! No traffic = NO SALES Targeted traffic = the sure fire way to website success! Announcing: 5 Ultra Simple Strategies For Effective Traffic Generation: How to Significantly Increase Your Web Site Traffic in Only 1 Hour per Day The old chestnut of if you build it they will come is one of the guideline concepts that many gurus teach unsuspecting new Internet marketers - choosing to let them believe that as long as theyve built the site that the rest will fall into place as easily as creating the site itself. And thats a LIE! Its a lie that you dont need to promote your site - but its something thats rarely covered or taught in most classes. You get all the tools you need to create a site, but you dont get the information that explains how to build a regular stream of traffic to your site. But were here to help! Weve produced a guide that explains the ins and outs of traffic generation from a new marketers perspective giving you the information you need to promote your site with targeted, interested customers. How much is this knowledge actually worth to you? In terms of traffic generation alone weve cut the guesswork out of the equation. If youre looking for the monetary value of this guide, youll need to consider weve: Cut development time to a minimum, Outlined and developed a worksheet to allow you to work out your niche and keywords, Suggested the best social networking sites, Explained what the diggenomenon is, and why its both a good thing, and a bad thing, and Why working on social networking sites means that youve got to allow the community to rate you. Its an age old issue that sites face, no matter where they are placed - from Internet Marketing to extreme niches, and of course, its hard to work out how to produce

strong traffic that isnt simply sent there to fulfill quotas. Weve produced a guide that helps you work out how to promote your site via: Pay per click Blogging and forums, List building and giveaways and MORE! Weve gone through all of the methods we use, and have worked out the best ways to produce traffic using the top techniques.
